RGP project inputs and quotation checks

Pipe and profile plastic granulator

RG-36P / RG-46P / RG-56P / RG-76P

Item	Details
Your material	Polymer and grade; note fillers, reinforcement and contamination.
Your section geometry	Longest length, cross-section, wall thickness, ribs and fittings; have photos ready.
Your feeding and floor space	How pieces will be supported and presented; approach route and available floor space.
Your workload	Scrap per batch or shift, available granulation hours, arrival pattern and material changes.
Your regrind requirement	Intended use, required particle size and acceptance criteria for fines or long pieces.
Your utilities and collection	Electrical supply and frequency, regrind collection point and dust-handling requirements.
RHONG's proposal	RHONG to confirm the exact variant; feed opening and cutting chamber separately; hopper-opening and service space; included feeding and collection equipment.
